

AI Workflow for Digital Evangelism.

Adrian Padarath · Zeal Creative

THE PROBLEM

The sermon ends on Sunday.

Pastors spend hours in study, prayer, and preparation.
By Wednesday, most people have forgotten.

AI doesn't create the message.

It distributes it.

Think of AI as a shovel, not a well.
Truth must already exist — AI helps draw it out.

Your social media is your front door.

People encounter your church through Instagram, YouTube, TikTok, and Google — before they ever attend a service.

THE OPPORTUNITY

1

sermon

10+

pieces of content, all week long

THE WORKFLOW

01

Record & Clip

OpusClip finds your 5–10 best moments automatically

02

Get Transcript

Descript, Riverside, YouTube, or Zoom AI

03

Extract with AI

Paste into ChatGPT — pull points, quotes, carousels, blog

04

Deploy all week

Reel · Quote · Carousel · Blog · Invite

POINTS

Extract the 5 main points from this sermon while preserving the pastor's wording.

QUOTES

Extract 8 powerful quotes under 20 words each. Preserve the pastor's exact wording.

CAROUSEL

Create a 6-slide carousel: Slide 1 title, Slides 2–5 sermon points, Slide 6 reflection.

ONE SERMON

Monday

Blog article

Saturday

Church invite

Social media becomes a mission field.

Live Demo.

Sermon transcript → ChatGPT → ready-to-post content.

USE AI CAREFULLY

✗ Fake testimonies or fabricated stories

✗ AI-generated congregation or event photos

✗ Quotes never actually said by the pastor

✓ **Authenticity is the foundation of ministry**

The sermon doesn't
end on Sunday.

It echoes throughout the week.
